Mohammad Ramadan

React-native Developer

Address: Giza, Egypt **Phone:** +201093413220 **E-mail:** mohammad.ramadan.eldabaa@gmail.com

LinkedIn: linkedin.com/in/mohammad-eldabaa **GitHub**: github.com/Mohammad-Eldabaa

PROFILE

React Native with a strong foundation in mobile and cross-platform development, graduated from the Faculty of Computer Science at Tanta University and completed the Front-End & Cross-Platform Development track at Information Technology Institute (ITI). Experienced in building scalable, high-performance mobile applications using React Native, JavaScript, and TypeScript, with hands-on experience in state management, API integration, real-time features, and modern mobile architectures. Skilled in creating clean, maintainable code and delivering intuitive, responsive user experiences. Passionate about continuous learning, problem solving, and contributing to impactful products within collaborative development teams.

Experience

- **Camp Coding** Jan 2026 – present
  - Developed and maintained mobile applications using React Native
  - *modified and improved the old applications to prepare them for re-release.*
  - Collaborated with the development team to meet project requirements and deadlines

- **Intensive Training Program (ITP)** Mar 2025 – Jul 2025
  Front end and cross platform (React Native)
  Information Technology Institute (ITI) - Tanta branch

EDUCATION

- **Bachelor of Computer Science** Sep 2020 – Jun 2024
  Tanta University – Faculty of computer Science and Information
  GPA: 3.11

SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, React.js, React Native (Expo & CLI), Next.js, jQuery
- **Styling & UI Framework:** CSS, Bootstrap, Sass, Animation
- **State Management & Libraries:** Redux Toolkit, Zustand, Redux Persist, React Navigation, Axios, React Hook Form, Formik, Yup, React Query, NetInfo, RESTful APIs, Maps, Gifted Chat, Gifted Chart,
- **Version control & Tools:** Git, GitHub, Figma, Jira, Postman
- **Backend:** Firebase, Supabase
- **Storage:** AsyncStorage, MMKV, Local Storage, Session Storage
- **Unit test:** Jest, Jasmine
- **Other skills:** Problem Solving, API Integration, UX/UI Design Principles, Animation, Clean Code, Code Reviews, Vercel deployment, Design patterns, Solid principles.

PROJECTS

- **DIGZ – Real Estate Connect**

- **Tech Stack:** React Native CLI, JavaScript
- **Links:** GooglePlay - Notion
- Developed key features for a property mobile app including address management screens (add/edit/delete, default selection) and Google Maps integration
- Built the creator profile module with follow/unfollow functionality and dynamic statistics (followers, views, reels)
- Implemented real-time chat functionality and contributed to additional enhancements and bug fixes across the application

- **Nutriomar – Health & Nutrition Mobile App**
- **Tech Stack:** React Native CLI, JavaScript
- **Links:** Notion
- Developed a full-featured health and nutrition mobile app with **Arabic & English support**, including RTL UI, onboarding, OTP authentication, and diet tracking.
- Built core features such as real-time chat, subscription management, push notifications, and body report uploads (PDF/JPG).
- Optimized performance and user experience through scalable architecture and clean, reusable components
- Project currently in development; my contributions will be all upcoming release

- **NourMasionStuff**
- **Tech Stack:** React Native (CLI), TypeScript
- **GitHub:** Notion
- Developed a full-featured internal mobile app for a restaurant brand, covering shift scheduling, salary advance requests, vacation management, and payroll tracking.
- Implemented staff self-service flows (vacation requests, salary advances with repayment plans) with manager approval notifications.
- Delivered a fully branded UI consistent with Nour Maison's visual identity.

- **Neonara-App**
- **Tech Stack:** React Native (CLI), TypeScript
- **GitHub:** GooglePlay
- Member of the mobile development team for a medical education platform.
- Contributed to the development and maintenance of features for educational content, interactive learning, and assessments.
- Collaborated backend developers, deliver a high-quality user experience

COURSES

- **React Native: mobile App Development (CLI)** Aug 2024
  Udemy

LANGUAGES

- **Arabic:** Native language
- **English:**: Intermediate

MILITARY SERVICE

- **Exemption**
